PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2.2+ years of hands-on experience building production-level web applications and REST APIs. Proficient in ASP.NET MVC, .NET Core (C#), React.js, JavaScript, and MS SQL Server. Experienced in designing layered architectures (Repository, Service, Controller patterns), stored procedures, and AJAX-driven frontends. Proven ability to deliver scalable CRM, vendor management, and API solutions. Pursuing BSc.IT from Mumbai University (2026).

TECHNICAL SKILLS

- ASP.NET MVC & .NET Core (C#)
- React.js & JavaScript (ES6+)
- MS SQL Server & Stored Procedures
- RESTful API Design & Integration
- jQuery & AJAX
- Bootstrap & UI/UX Design
- Entity Framework & LINQ
- Git & GitHub Version Control
- Firebase (FCM, Analytics, Realtime DB)
- Swagger / OpenAPI Documentation
- Blender 3D Modelling & Animation
- Agile & Scrum Methodologies

PROFESSIONAL EXPERIENCE

Software Developer | JMM Infotech (Sunil Yadav)

April 2024 – Present

- Designed and developed CEPL Sales CRM — a full-featured Leads and Vendor Management Portal using ASP.NET Core (C#) with RESTful API integration covering VMS and CRM modules.
- Built Friend Book App API connecting a mobile application using ASP.NET Core with Swagger documentation, enabling secure user authentication and real-time data sync.
- Developed Friend Book Web, an admin panel for the Friend Book mobile application with full REST API integration built on ASP.NET Core (C#).
- Implemented FORT.AI — a programming-focused AI final year project deployed at fortai.jmmportal.com.
- Engineered Purchase Order and Vendor Invoice management modules including PO-to-invoice linking, GST/RCM tax calculations, multi-page print views, and payment advice workflows.
- Built a full notification system (SQL stored procedures, Repository, Service, and API Controller) for real-time like and comment events with self-notification blocking.
- Consistently resolved ASP.NET Core camelCase JSON serialization conflicts with PascalCase JavaScript property references across multiple production deployments.
- Debugged and optimised stored procedures (USP_SavePOInvoiceLink, USP_GetAttachmentsById, USP_BankOnePrint) for complex financial data workflows.

KEY PROJECTS

FORT.AI — Programming Focused AI | Final Year Project

2025–2026

- AI-powered coding assistant built for developers; live at fortai.jmmportal.com. Integrated with ASP.NET Core backend and React.js frontend.

CEPL Sales CRM | JMM Infotech

2024–Present

- Enterprise CRM covering lead tracking, vendor management, purchase orders, GST calculations, invoice management, and payment workflows.

Friend Book App & Admin Panel | JMM Infotech

2024

- RESTful API (Swagger) for mobile app authentication and data management. Separate ASP.NET Core admin panel for full user and content management.

EDUCATION

Bachelor of Science in Information Technology (BSc.IT)

2023 – 2026 (*Pursuing*) Ramniranjan

Jhunjhunwala College, Mumbai University, Ghatkopar, Mumbai

HSC — Commerce with Mathematics 2022 – 2023 Ramniranjan Jhunjhunwala College, Maharashtra Board — 76.83%

SSC

2020 – 2021 Yogiraj Shree Krishna Vidyalaya, Maharashtra Board — 79.40%
